

From ASD-CERT President

*ASD-CERT has noticed a significant increase of activity since the beginning of 2009. We have received more than 16 audit reports at ASD-CERT board within the first 3 months compared to 12 for the whole year 2008. Our financial situation has improved since a new pricing policy has been implemented and re-qualification rules have been established. We thank the manufacturers for using ASD-CERT structure and the ASD-CERT mandated bodies for their cooperation. I am convinced that 2009 will be a fruitful year which is the proof of confidence from big OEM companies and manufacturers. They rely on ASD-CERT as a second part actor to qualify their products.*

2<sup>nd</sup> Vice President nomination

John Cooper (Rolls-Royce) was nominated ASD-CERT 2<sup>nd</sup> Vice President during the last ASD-CERT General Assembly in Berlin.

New ASD-CERT Secretary General

Since December 2008, Nicolas Devilliers is the new ASD-CERT Secretary General. He is also acting as ASD-STAN Technical Services Manager. During the last 4 years, he was Quality and Development Manager in BNAE.
